

Volunteer Profile: Foyer Team

A foyer team is needed to work with the stewards' team at Sunday evening services.

Their main purpose is to meet and greet those who come into the foyer while the church is open for evening services.

Team members would need to feel comfortable to speak with and listen to visitors who may have needs and be more demanding of our time. They must feel able to define the help that they may need, sit with them during the service if required, give them a drink and possibly pray with them.

These services will not always be needed but when they are it is important to have the right support in place.
